

Pacific Pallet Trucks

Pacific Pallet Truck are the economical alternative to forklifts and are suited to manoeuvring pallets in the workplace.

Features

- Unique cast iron pump design features hardened and chromium plated piston and ram, along with top of stroke and overload bypass valve.
- Large rubber covered handle with finger-tip control.
- Special lowering valve allows control of descent rate.
- Articulating axle provides easier handling and control on uneven floor surfaces.
- The flow-regulating valve enables controlled speed with or without load.
- Polyurethane over aluminium steer wheels with double sealed bearings for quiet operation and long life.
- Stainless steel version also available on request.
